

Bitter moon

- Just one look and **he** caught *fire the moment* - *her picture* settled in
- *To have and hold* was **his** desire so the - **story** can begin
Under the moon - bitter moon
Nothing's quite what it seems in the light of the bitter moon

- *When he **asked** her the size of ring she said: you **move** too far too fast*
- Her shaking hand didn't **mean** a thing
When he **swore** *that his love* would last
Under the moon - bitter moon
Nothing's quite what it seems in the light of the bitter moon

She tried to talk about this boy she met
And that her daddy thought she wasn't ready yet
She hugged him saying he would soon forget
But he said: no no no no no no

- Johnny pulls of waterdrops the **board**walks still the line
- Love or lust or just desire any**thing** to catch a shine
Under the moon - bitter moon
Nothing's quite what it seems in the light of the bitter moon

solo

- Burning wheels *into a **cloud*** of dust down the - **moon**lit road to hell
- *Crying oceans for the **love*** he'd lost another - **fool** caught in the spell
Under the moon - bitter moon
Nothing's quite what it seems in the light of the bitter moon

Under the moon - bitter moon
Nothing's quite what it seems in the light of the bitter moon
Nothing's quite what it seems in the light of the bitter moon
