

On a long lonely Night

I've been wondering where you Where you've gone - Been such a long time
I've been living alone for way too long
You've been out all night Fooling round, - with a bunch of bad guys
Now you know how I hate It when you're not near

And I miss you so much pretty lady - You know that I do
And I wish you'd come home
But you're not near
How could you walk away, when I needed you? -
You make me cry on a long lonely night
(On a lonely night)
(On a lonely night)

I've been wondering how you, you could go - Just gone and left me baby
You turned me on, and then left me on my own
And the light of the day Breaks through my window
You left me naked, where you used to live

And I miss you so much pretty lady - You know that I do
And I wish you'd come home
But you're not near
How could you walk away, when I needed you?
You make me cry on a long lonely night
(On a lonely night)
(On a lonely night)

I wonder if you'll ever come back in to my life
I wonder where you've been so long
Don't you miss me, like I miss you

Well I miss you so much pretty lady - You know that I do
And I wish you'd come home
But you're not near
How could you walk away, when I needed you?
You make me cry on a long lonely night
(On a lonely night)
(On a lonely night)
(On a lonely night)
You make me cry
(On a lonely night)
On a long lonely night
